TAFE WA

POWERING INDUSTRY THROUGH PARTNERSHIP

Unlock workforce capability, drive innovation and meet your business needs with TAFE WA's proven partnership models.

TAFE WA

TAFE WA is training Western Australia's future workforce.

With five TAFE colleges and more than 50 TAFE campuses located throughout the State, TAFE WA is experienced in providing innovative training solutions. Partnering with your local TAFE opens the door to TAFE WA's industry qualified trainers and experienced teams to develop and design solutions to meet your current and future workforce needs.

Why partner with TAFE WA?

Partnership models are not just collaborative, they're transformative. They:

Build agile, industry-aligned training delivery and workforce capability that keeps pace with industry growth.

Ensure strong compliance and quality assurance.

Enhance commitment and responsiveness to diversity, inclusion, industry and community needs.

Drive innovation and embed a culture of continuous improvement that strengthens organisational capability.

TAFE WA is committed to delivering high-quality, responsive vocational education and training that empowers learners and supports industry growth. Our partnerships are the foundation of a skilled, future-ready workforce.

Our partnership models deliver results

WA TAFE colleges are driving workforce development through strategic partnerships that build capability, ensure compliance and deliver agile, innovative training to meet the evolving needs of learners and industry.

CO-DESIGN

Work directly with TAFE WA to co-create training programs. Ensuring training is current, relevant and aligned with your workforce needs and industry standards.

CONSORTIA

Join forces with multiple partners to tackle skill shortages and deliver future-focused programs. By pooling resources and expertise, create scalable solutions that prepare graduates for the jobs of today and tomorrow.

CONSULTANCY AND CUSTOMISED SOLUTIONS

Access tailored, practical training developed in consultation with your business. Solutions are designed to meet specific operational goals, impact and strategic alignment.

INDUSTRY ADVISORY GROUPS

Shape the future of training through ongoing consultation. TAFE industry advisory groups ensure training remains responsive to emerging trends, is current and meets industry expectations.

INTERNATIONAL PARTNERSHIPS

TAFE has proven training capability both locally and internationally, supporting offshore delivery for international educational institutions, large consortiums and companies. We connect with global networks offering consultancy services to support international engagement, training and vocational excellence.

THIRD-PARTY AND HYBRID DELIVERY

Enhance your team's capabilities through flexible on-site training solutions. Industry partners engage subject matter experts to support the delivery training and assessments at your premises. TAFE maintains full oversight of quality assurance and compliance throughout the process.

COMMERCIAL AND GRANT-FUNDED PROJECTS

Drive innovation and expand your business capability through non-government funded training solutions. Training models are responsive and support high impact training delivery co-designed with you to meet your specific needs.

ABORIGINAL ORGANISATION PARTNERSHIPS

Foster culturally responsive training and improved outcomes for Aboriginal learners through focused collaboration. Partnerships support effective training, boost community involvement, and improve learner participation and retention. These programs will be co-designed to meet local employment and development needs.

REMOTE SERVICING

Deliver training where it's needed most. TAFE WA's remote servicing models bring training to regional and remote communities, building local capacity and supporting workforce development in hard-to-reach areas.

TAFE-UNIVERSITY PARTNERSHIPS

Combine academic theory with hands-on vocational training. Offering students immersive learning experiences in state-of-the-art facilities and real-world industry settings can enhance industry readiness and educational outcomes.

Innovating for the future

TAFE WA is future-focused, adopting bold, agile models to meet emerging workforce needs and support industry transformation.

MICRO-CREDENTIALS AND STACKABLE PATHWAYS

Rapid, flexible training solutions co-developed with industry partners. Learners gain targeted skills with clear progression to full qualifications.

DIGITAL AND EDUCATIONAL TECHNOLOGY PROVIDERS PARTNERSHIPS

Cutting-edge digital, blended and virtual learning solutions designed in collaboration with educational technology providers that deliver digital learning platforms. Models support flexible, work-integrated training.

COMMUNITY AND SOCIAL ENTERPRISE

Inclusive training models delivered in partnership with community organisations and social enterprises. Supporting priority cohorts promotes access and equity and increases social impact.

EMPLOYER-LED SMALL AND MEDIUM ENTERPRISE (SME) TRAINING

Industry experts deliver immersive, job-ready training aligned to workplace standards. Learners gain real-world insights and employers help shape the future workforce.

INDUSTRY LECTURER TRANSITION

Supported pathways for professionals transitioning from industry into TAFE lecturing roles, assisting with critical skills gaps, building an experienced vocational training workforce.

READY TO BUILD YOUR FUTURE WORKFORCE?

Contact TAFE WA today through your local TAFE to explore partnership opportunities and discover how we can deliver real results for your business and community. If your training needs are statewide or across multiple regions, your local TAFE will coordinate relevant collaborations to activate the TAFE network capability to meet your requirements.
